

David Hyde & Associates

Is your organization in full compliance with Ontario's P.S.I.S.A? Are you sure?

Our Services at a Glance

- go through the REQUIREMENTS of the legislation with you
- prepare a CONFIDENTIAL ASSESSMENT to identify your degree of readiness for a PSISB inspection
- help you to BECOME COMPLIANT in the places where you may not meet the required standards
- help you to DOCUMENT your compliance

We Can Help....

Security businesses are subject to more security licensing rules and regulations in Ontario than in most other provinces. There are 13 separate sets of Regulations under the Private Security and Investigative Services Act (PSISA), and well over 100 different offences with which a security business can be charged under the provisions of the PSISA and its Regulations.

In August of 2010 the Private Security and Investigative Services Branch (PSISB) launched a year-long regulatory compliance blitz under which Compliance Inspectors representing the PSISB are being sent out to every licensed security business in the GTA.

Their mandate is to make sure that every licensed business is aware of and is complying with each one of those 100+ regulatory requirements. Are you? Do you really know? Can you really afford to take the time necessary to find out?

Let us help you. At **David Hyde & Associates** we have developed a PSISA Compliance Audit Tool that we use to help security companies and business organizations make sure that they are compliant BEFORE the PSISB Compliance Inspectors arrive.
